arising from IMPURE BLOOD. THE ALMOST MIRACULOUS CURES made by Hampton's Vegetable Tincture on our most respectable discensemen well known and tried—we challenge the world to show anything on record in medicine to equal it. Many hundreds who have felt its healing powers bear the same testiment.

Messrs. Mortimer & Mowbray: Gents: Last September I formed on my right leg. Getting better of this, last November I took a deep cold, which led to what my physician cold me was billous pleurley, which left me with a censtant, deeply-scated, and painful cough, having no rest day or night, and constantly throwing up from my lungs a thick matter. I became much emaciated, growing weaker every day, and keeping my bed the greater part of the time. My friends thought I had the consumption, and at times I was also of the same opinion. At this stage of my disease, after having tried many and various remedies, without success, a friend advised me to try DR. HAMPTON'S VEGETABLE TINC-TURE, and precured me a bottle, which I now pronounce the greatest medicine I ever took. Before I had taken half the contents of one bottle I felt much improved; and now, having taken but two bottes, my cough and pains have entirely left me, and I am erabled to attend to business. I can truly say that, with the blessing of God, I have been restored to the health I now enjoy by the use of this most invaluable medicine.

Yours,

Were there not real virtue in this wonderful medicine and it perform the astonishing cures made by it?

could it perform the astonishing cures made by it?

Northampton Co., April 13, 1852.

Messrs. Tyler & Adair: I have been afflicted with Rheumatism, at times, from my twelfth year; I will be fifty years of age the 18th of this month; the attacks were at times so severe as to render me helpless; I have tried various remedies to very little effect. Last October I was attacked in my shoulders, sides, back, and hips; I could not rest, day or night; I could not move any part of my body without crying with pain; at this time I also tried many remedies, internal and external, without receiving any relief: I was at ing with pain; at this time I also tried many remedies, internal and ext-rnal, without receiving any relief; I was at last advised to try HAMPTON'S VEGETABLE TINCTURE; before I had taken one bottle of which I felt much better, and as I continued taking it I felt strength coming into my back and limbs, and my stemach strengthened and revived every way; I have taken five bottles, and am much better than I ever expected to be. I intend to use it whenever I need it, and would recommend it to the afflicted, believing it unequalled.

Yours,

ELIZABETH BAGWELL.

REV. VERNON ESKRIDGE, U. S. N.

PORTSMOUTH, (Va.,) Aug. 18, 1851.

Mr. J. E. Boush—Dear Sir: While 1 am in general opposed to Patent Medicines, candor compels me to state that 1 have great confidence in the virtues of Hampton's Vegotable Tincture. For several months past I have used it in my family, and in Dyspepsia, loss of appetite, dizziness, and general debility, with entire success. So far as my experience extends, therefore, I take pleasure in recommending it to the afflicted as a safe and efficient remedy.

I am, respectfully, yours,

VERNON ESKRIDGE,

Chaplain in the U. S. Navy.

KRAUSER'S PATENT CLOVER-SEED HAR-KRAUSER'S PATENT CLOVER-SEED HAR-VESTER

IS BEFORE THE PUBLIC FOR THE TIRST TIME!

Its utility is beyond comparison with any other farming implement now in use. It takes the seed from the field, leaving the straw or grass all standing. It weighs two hundred and fifty pounds, is drawn by one horse, and gathers from ten to twelve acres per day. The fingers, or teeth, catch all the heads, the revolving knives cut them off and throw them back into the box, which will cross a twenty-acre field without emptying. The heads are then loaded into a wagon and taken directly to the mill for cleaning, thus diminishing the labor three-fourths, and saving all the seed. This machine comes so low that every farmer will have it, and pays the manufacturer 300 per cent.

E. WHEELER, Agent for Washington.

Caces Keys, Washington Township, Camber Co., N. J.,
September 4, 1851.

We, the undersigned, do certify that we have seen Mr.
Kranser's Patent Clover Harvester in operation, and it has
given perfect satisfaction. It has gathered many of the
farmers' clover in this neighborhood—it is all that Mr. Kranser and his bills represent it to be. The farmers have given
che-half for gathering and threshing.

THOMAS TUMBLESON.

Long-A-Coming, October 7, 1851. Lesson-Aconsino, October 7, 1851.
This is to certify that Mr. G. J. Naylor has gathered clover off of a sixteen-acre field of mine, which has been pastured two months with ten head of cattle, and it produced six bushels and a half and one peck of seed. I gave him two-thirds for gathering and cleaning. I think his machine is first-rate, and answers all the purpose that is intended.

NEHEMIAH NICHOLSON.
The following points out the profitable nature of the Harvester:

KRAUSER'S PATENT CLOVER-SEED HARVESTER -KRAUSER'S PATENT CLOVEN-BEED HARVEGUEN. We have conversed with a number of Farmers, and they are of opinion that there are at least 3,000 acres in each township in Camden or Gloucester county, New Jersey. Admitting there are but 1,000, it is said that each acre will yield from 1½ to 3 bushels. Reducing it to a certainty of yielding but 1 bushel per acre, what will it cost to gather and thresh 1,000 acres?

Cost of harvesting, &c., 1,000 acres... \$500 

culation.

Perhaps no invention offers greater inducements for a profitable investment than the Harvester. For an enterprising young man, of good business habits, a large sum of money could without doubt be realized from the sale of rights in the different States of the Union not yet disposed of. By calling at this office, it can be demonstrated satisfactorily that men of moderate capital could not choose a better or more money-paying business.

Those who wish to see a model of this celebrated farming implement, and the satisfactory manner in which it coverts.

NEWS BY TELEGRAPH.

Later from Europe.

ARRIVAL OF THE HUMBOLDT. New York, July 19—21 р. m. The Humboldt arrived here at eight o'clock his morning, after a passage of cleven days and nine hours. She brings ninety-nine passengers and six hundred tons freight, valued at one and a half to two millions of dollars. Among the passengers are Kossuth's sister, her husband, and three children.

The Humboldt experienced strong westerly gales during her whole passage.

The Liverpool grain trade was duil. Prices of wheat flour were well supported. Corn was in moderate demand. The weather was exceedingly heavy. The elections caused a general dullness. Money was unchanged.

The grocery market was unchanged also. Among the passengers is G. P. Bregan, bearer of despatches, and Prince Lubomorski.

The America arrived at Liverpool on the 4th. When the Humboldt left, the whole United Kingdom was engaged in a general election. It was thought the result would be in Lord Derby's not getting a working majority. It was feared also that the elections would not pass without disturbances

The Stockport riots having fearfully aroused religious animosities of both Protestants and Catholics, a large number of pikes were seized by the police in Liverpool, which were intended for the Orangemen, to be used either in defence or aggression at the elections.

> Asseveral American clergymen will, doubtless, be competitors for this splendid premium, we copy from an Aberdeen paper the exact subject to be elucidated, as expressed in the following terms: "The evidence that there is a Being, all powerful, wise, and good, by whom everything exists; and particularly to obvinte difficulties regarding the wisdom and goodness of the Deity and this, in the first place, from considerations independent of written revelation; and, in the second place, from the revelation of the Lord Jesus; and, from the whole, to point out the inferences most necessary for and useful to mankind

The annexed directions should also be observed: Each treatise must be distinguished by a pecuiar motto, this motto must be written on the utside of a sealed letter containing the author's name and address, and sent along with his performance. The names of the successful candidates only shall be known by opening their letters. The other letters shall be destroyed unopened The writers of the unsuccessful treatises may afterwards have them returned, by applying to Messrs. Webster, Aberdeen, by the mentioning only the motto which they may have assumed."

The judges will be three in number, and will be selected only for their known capacity. They will not, however, be required to award the prein use; and the mium, unless a production of decided merit should be presented, even though one of the competing essays should be greatly better than any of the others. There are many clergymen who will esteem it labor in vain to prove what no one else doubts; but probably few will consider the time ill-spent which may result in the acquisition of twelve thousand dollars-the manifold utilities of which no one has ever doubted!
